PRODUCT

60% FISH KIX MEAL

DESCRIPTION

High digestibility fish meal, made from **selected fresh fish discards** and fish waste. The raw material is kept refrigerated (4 °C) until processing. Produced under very **careful conditions**, with less than 15 minutes total processing time. The cooking process lasts for 2 minutes at 90° C. The drying phase takes place in an air drier, where the water is removed almost instantaneously under a "flash off" system. The end result is a high protein meal retaining most of the original protein content and with the **highest nutritional standards**, including a **high biological value** and **high water** and **oil retention capacities**.

TECHNICAL PROFILE

Humidity	Nutritional parameters (Dry Matter)							
	Gross Protein	Gross Fat	Ash	Salt	NH ₃ -N	Digestibility	Cadaverin	Antioxidant
7-10%	62%	11%	15%	<3%	<0,18%	93-95%	<1000 ppm	200 ppm

PACKING

Double reinforced 1000 kg Big Bags.

REFERENCE PRICE

Quotations depend on purchase volume and payment conditions. For further information, please contact our Commercial Office at ventas@acuinuga.com.

AVAILABILITY

Delivery time: 15 working days of order confirmation.

ADDITIONAL INFORMATION

Use within 1 year from packing date. Keep in a dry place. Do not exceed storage temperatures over 18 °C. Do not expose to direct sunlight.
