PRODUCT

LIVE FISH GRADERS

DESCRIPTION

High accuracy (<0,5 g) live fish graders useful for the careful grading of **several species, avoiding damage** in their tegument or scales. Grading is essential for the prevention of cannibalism, batch homogeneity and consistent growth rates. Designed to be fitted with live fish transfer pumps and electronic fish counters (Technical Sheets N° 512 and 511). Mounting grading strips and roller systems continuously irrigated by water, ensuring the smooth passage of live fish. **Portable, light, easily operated** machines, built with quality materials guaranteeing their long life with **minimal maintenance**. The state-of-the-art water intake and elevation devices allow the proper positioning of the fish at all times during the live transport procedure, while keeping output water running continuously at the bottom of the structure.

Please contact our Commercial Office at ventas@acuinuga.com for further details.

TECHNICAL PROFILE

3-5 grading channels with graded fish outlets on both sides of the structure,. Capacity: 1-8 MT/h. Powered by two 0.5 to 1 kW electric motors, 1 and 2 speeds, 220/380 V. Fish grading range from 0.5 g to 5 kg. Required water pump flow 100 to 1500 L/min. Machine weight: 100 to 420 Kg. Materials: AISI 318L steel, corrosion resistant aluminium and P40 polyethylene.
