PRODUCT

ELECTRONIC FISH COUNTER

DESCRIPTION

High precision (99%) electronic fish counter. Facilitates the precise estimation of biomass during the adjustment of stocking densities, feeding levels, vaccination protocols etc. **Easy to use**, animals slide through 1-4 independent scanning channels. The number of fish passing through each channel is registered by a central control station. Overlap errors are minimized by state-of-the-art algorithmic software. Fits live fish pumps and automatic graders (Technical Sheets n° 510 and 512), making the transfer, grading and counting of the cultivar possible within a single operation.

TECHNICAL PROFILE

Central C.P.U. unit. 3 scanner units. 3 V-shaped counting channels. 3 interconnecting coaxial cables. 1 audio alarm. Accuracy 99%. Suitable for counting fish ranging 3 g to 6 kg in body weight.
