## PRODUCT

# AQUACULTURE CAGES

## DESCRIPTION

**Cages** designed specifically for the Aquaculture of **marine** or **freshwater** species. Built in robust, corrosion-free materials such as stainless steel, galvanized iron, polyethylene, polypropylene, PVC and extruded aluminum. Fixed or mobile, cubic or cylindrical in shape; surface, submerged or submersible mooring. Customer tailored design depending on location, climatic conditions and nature of the cultivar. Comparatively **low investment** while ensuring **high durability**, **minimum maintenance** and optimum growth rates, reducing operational costs. **Long lifespan** nets with a wide range of mesh sizes, treated with antifouling coating allowing for high stocking densities while preserving the biosafety of the cultivar.
