PRODUCT

PROCESSING EQUIPMENT

DESCRIPTION

Analysis, design and installation of equipment for the **processing of Aquaculture-derived products**. Detailed assessment and evaluation of technologies and products suitable for each facility such as tubs for animal reception, culling systems, cleansing and bleeding systems, gutting, peeling, filleting and treatment processing lines. Weighing and dispensing systems, waste collection systems, packaging systems, labelling systems, storage and transportation systems, etc. Built in durable and robust materials, corrosion resistant and operator-friendly. Customer-specific study of valorisation alternatives, **budget advice**, customer tailored design and **maintenance optimisation**.

ADDITIONAL INFORMATION

For the dimensioning of processing equipment, selection of systems best suited to your needs and instructions on installation, operation and maintenance, please refer to our Commercial Office at ventas@acuinuga.com.
